

1. Microsoft has discontinued support for internet explorer, the systems were designed earlier for DSC on IE only.
2. While the application to allow DSC in browser neutral manner for all users on old system is pending for release (it is already working on ebill), it is imperative that users do not run windows update on their computers meanwhile as it may cause issues.
3. For users who have updated their windows, pls follow these steps on edge

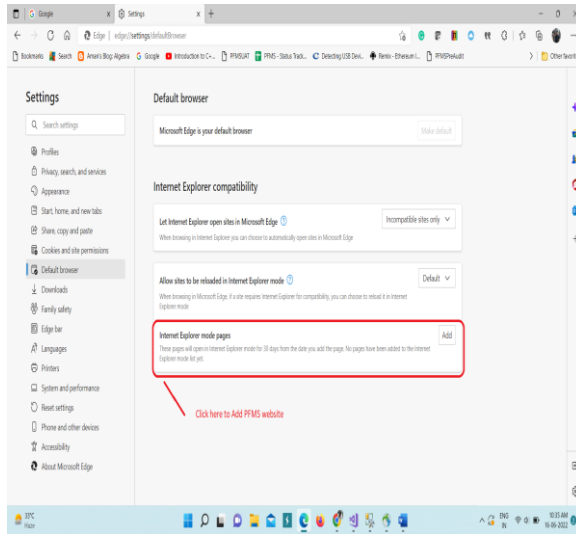

a) Open edge.

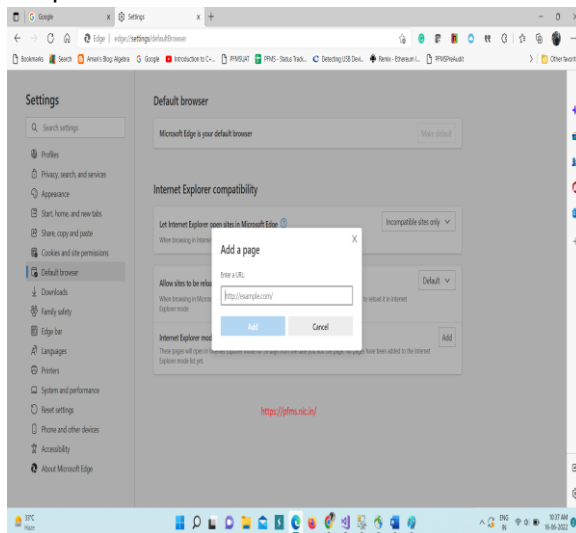

b) Step 2

c) Step 3

d) Step 4

e) After that close browser and then open Again. The browser opens in internet explorer mode.
